§1434.8 Containers and drums.

- (a)(1) To be eligible for assistance under this part, honey must be packed in:
- (i) CCC-approved, 5-gallon plastic containers;
 - (ii) 5-gallon metal containers;
- (iii) Steel drums with a capacity not less than 5 gallons nor greater than 70 gallons, or
- (iv) Plastic Intermediate Bulk Containers (IBC's).
- (2) Honey stored in plastic containers must be determined safe and secure from all possibility of contamination.
- (3) Honey storage containers used for these purposes must meet requirements of the Federal Food, Drug and Cosmetic Act, as amended and other specified requirements, as determined by CCC and must be generally fit for the purpose for which they are to be used.
- (4) CCC-approved 5-gallon plastic containers must hold approximately 60 pounds of honey. The containers must be free and clear of leakage and punctures and of suitable purity for food contact use and meet food storage standards as provided by CCC. Plastic containers must be new or previously used only to store honey. Plastic containers previously used to store chemicals, pesticides, or any other product or substance other than honey are ineligible for honey storage. The handle of each container must be firm and strong enough to permit carrying the filled container. The cover opening must not be damaged in any way that will prevent a tight seal. Containers that have been punctured and resealed
- will not be acceptable;
 (5) The 5-gallon metal containers must hold approximately 60 pounds of honey, and must be new, clean, sound, uncased, and free from appreciable dents and rusts. The handle of each container must be firm and strong enough to permit carrying the filled container. The cover and container opening must not be damaged in any way that will prevent a tight seal. Containers that are punctured or have been punctured and resealed by soldering will not be acceptable; and
- (6) The steel drums must be an open type and filled no closer than 2 inches from the top of the drums. Drums must

- be new or must be used drums that have been reconditioned inside and outside. Drums must be clean, treated inside and outside to prevent rusting, fitted with gaskets that provide a tight seal and have an inside coating suitable for honey storage.
- (7) IBC's are bulk containers with a polyethylene inner bottle and a galvanized steel protective cage, a capacity of either 275 or 330 gallons, and are reusable. IBC's must be clean, sound and provide a tight seal.
- (b) Honey shall not be eligible to be pledged as collateral for loans if such honey is stored in:
- (1) 55-gallon steel drums having a tare weight less than 38 pounds, 30-gallon steel drums having a tare weight less than 26 pounds, or drums having removable liners of polyethylene or other materials;
 - (2) Bung-type drums;
 - (3) Bulk tanks;
- (4) Containers that do not meet the specified requirements of paragraph (a) of this section or other CCC specifications or requirements.
- (5) Steel drums that are severely enough dented as to cause damage to their lining, improper seal, or stacking capabilities; and
- (6) Rusted drums with corroded areas

[66 FR 15177, Mar. 15, 2001, as amended at 69 FR 52169, Aug. 25, 2004]

§ 1434.9 Determination of quantity.

The amount of a marketing assistance loan and loan deficiency payment shall be based on 100 percent of the net weight in pounds of such quantity certified by the producer and verified by the county office representative for honey on Form CCC-633 (Honey) that is eligible to be pledged as security for the loan or LDP Estimates of the quantity of honey shall be made on the basis of 12 pounds for each gallon of rated capacity of the container.

§ 1434.10 Application, availability, disbursement, and maturity.

(a) A producer must, unless otherwise authorized by CCC, request loans and loan deficiency payments at the appropriate FSA county office responsible

§ 1434.11

for administering the program as provided under part 718 of this title. To receive loans and loan deficiency payments for honey, a producer shall execute a note and security agreement or loan deficiency payment application on or before March 31 of the year following the year in which the honey was extracted.

(b) A producer must request a loan at the county office of the county where the honey is stored if the honey is stored at the producer's farm. A producer who requests a loan on honey stored in eligible storage other than the producer's farm, may request loans at either the county office of the county where the storage facility is located or at the county office of the county where the producer's main place of business is located. A CMA must request loans at the county office for the county in which the principal office of the CMA is located unless the State committee designates another county office. If the CMA has operations in two or more States, the CMA must file its loan applications at the county office for the county in which its principal office for each State is located.

(c) Loans will be made on the honey as declared and certified by the producer on Form CCC-633 (Honey), (Honey Loan Certification and Worksheet) at the time the honey is pledged as collateral for a loan. The producer is also required to declare and certify on Form CCC-633 (Honey) the class (table or nontable) and floral source of the honey at the time the honey is pledged as collateral for a loan.

(d) The request for a loan shall not be approved until all producers having an interest in the honey sign the note and security agreement and CCC approves such note and security agreement. The disbursement of loans will be made by county offices on behalf of CCC, for honey that:

- (1) Has been extracted;
- (2) Is in eligible storage; and
- (3) Has not been blended or mixed with ineligible honey.
- (e) Loans mature on demand but not later than the last day of the ninth calendar month following the month in which the note and security agreement was approved. When the final maturity date falls on a non-workday for county

offices, CCC shall extend the final date to the next workday. Before the date determined in paragraph (a) of this section, a producer may re-offer as loan collateral any eligible honey that has been offered previously for a CCC loan and the loan has been repaid at principal plus interest only.

(f) If, after a loan is made, CCC determines that the producer or the honey collateral is not in compliance with any of the provisions of this part, the producer shall refund the total amount disbursed under loan and charges plus interest, including late payment interest as provided in part 1403 of this title.

[66 FR 15177, Mar. 15, 2001, as amended at 67 FR 64481, Oct. 18, 2002]

§1434.11 Fees and interest.

(a) A producer shall pay a nonrefundable loan service fee to CCC. The loan service fee shall be the smaller of one-half of 1 percent (.005) times the gross loan amount or \$45 per loan plus \$3 for each storage structure over one.

(b) Interest that accrues with respect to a loan shall be determined in accordance with part 1405 of this chapter.

§1434.12 Liens.

(a) CCC's security interest in the honey pledged as collateral is first and superior to all other security interests.

(b) The county office shall file or record, as required by State law, all financing statements needed to perfect a security interest in honey pledged as collateral for a loan. The cost of filing and recording shall be for the account of CCC.

(c) If there are any other security interests, liens, or encumbrances on the honey, CCC shall obtain waivers that fully protect the interest of CCC even though the security interests, liens, or encumbrances are satisfied from the loan proceeds. No additional security interests, liens, or encumbrances shall be placed on the honey after the loan is approved.

§ 1434.13 Transfer of producer's interest prohibited.

Absent written approval from CCC, the producer shall not transfer either the remaining interest in, or right to redeem, the honey pledged as collateral for a loan on honey nor shall anyone
